

DETAILS ON ELIGIBLE AND INELIGIBLE ACTIVITIES INCLUDE

HOUSING SERVICES

Housing services are those that lead to an individual or family transitioning into more stable housing that has been deemed appropriate and safe. Housing could include:

- **Transitional housing:** Housing intended to offer a supportive living environment for its residents, including offering them the experience, tools, knowledge and opportunities for social and skill development to become more independent. It is considered an intermediate step between emergency shelter and supportive housing and has limits on how long an individual or family can stay. Stays are typically between 3 months and 3 years.
- **Permanent supportive housing:** Housing that combines rental or housing assistance with individualized, and flexible support services for people with high needs related to physical or mental health, developmental disabilities or substance use. Permanent supportive housing may be:
 - **placed-based:** Congregate or independent permanent supportive housing units situated in 1 building or location
 - **scattered-site:** The provision of permanent supportive housing services in the community, delivered through home visits or community-based agencies
- **Housing:** Housing that is not supportive housing and that can be long-term. Includes a house, apartment or room (including social housing) that a family or individual rent or owns. Housing may include living arrangements with friends or family members that are expected to be long-term.
- **Indigenous housing options** that reflect Indigenous values, beliefs and practices (for example, community/family living environment) and are delivered by Indigenous organizations.

Eligible activities include:

- Securing housing for individuals and families by working with private and public local real estate, landlord associations, home communities (for example, First Nation band, Inuit community, Métis settlement), to identify available housing units.

Ineligible activities include:

- Emergency Housing funding while the individual or family is supported by the provincial, territorial or municipal welfare and rent supplement programs; and
- Level of funding provided for Emergency Housing Funding must not exceed amount of financial assistance provided by provincial, territorial or municipal rent supplement programs.

PREVENTION AND SHELTER DIVERSION

Prevention includes activities aimed at preventing homelessness by supporting individuals and families at imminent risk of homelessness before a crisis occurs. This includes supporting individuals and families who are currently housed but at-risk of losing their housing, and preventing individuals who are being discharged from public systems (for example, health, corrections, and child welfare) from becoming homeless.

Populations at imminent risk of homelessness are defined as individuals or families whose current housing situation will end in the near future (for example, within 2 months) and for whom no subsequent residence has been established.

Shelter diversion is a tool used to prevent the use of emergency shelters by providing individualized supports when families and individuals are seeking to enter the emergency shelter system. Shelter diversion programs help individuals and families seeking shelter to explore safe and appropriate alternate housing arrangements and, if necessary, connect them with services and financial assistance to help them find secure housing.

Shelter diversion is different from other permanent housing-targeted interventions because of the point in time in which the intervention occurs. Shelter diversion focuses on people as they are seeking entry into shelters, while prevention focuses on people at risk of homelessness. However, many of the same initiatives may be employed with shelter diversion as with prevention.

They may also include services to support the economic, social and cultural integration of individuals and families.

Basic needs services

Funding for basic needs services support outcomes that contribute to a reduction in homelessness. For example, short-term food and emergency shelter assistance are eligible activities as a means to assist homeless individuals to obtain placement in more stable housing. Longer-term food programs can also be funded if they are part of another intervention that is considered an eligible activity. For Indigenous individuals and families, funding could support culturally appropriate services and connection with community (for example, local and/or home community, including First Nation band, Métis settlement, etc.).
