SUMMARY COMMENT
Are there particular efforts and/or issues that you would like to highlight for this reporting period related to your community's work to achieve the Reaching Home minimum requirements? In particular, please describe your community's efforts to set-up or improve the Coordinated Access governance structure, including processes to ensure that policies and protocols, as approved by the governance group(s), are being implemented across the system as intended to achieve desired results.
The Coordinated Access System was launched in 2019. Based on the various scorecards for both Reaching Home and for Built for Zero, we still have work to do to achieve some Basic and Advanced levels on some of the scorecards. For the Reaching Home scorecard related to Coordinated Access, as a system we need to work through determining the governance structure, data management, coverage and access points and housing services and priorities. These are all in progress – we have had a few meetings of the local Built for Zero leadership table about governance structure and have had a few of these meetings facilitated by our Built for Zero Improvement Advisor. We have the Community Advisory Board (CAB) plus a local Housing and Homelessness Steering Committee and the Steering Committee has two working groups (Ending Homelessness/Staying Housed and Building Housing). There is a desire to review this structure and determine an overall governance structure for Built for Zero and Reaching Home. In terms of data management, the City of Peterborough has dedicated a position specifically to homelessness data management – Homelessness Data Administrator – this person is fully responsible for managing the BNPL, HIFIS (training, processes, reports, etc). Through this role, we will continue to work through what is required for the data management piece of the scorecard. The City of Peterborough's Housing and Homelessness Plan 2020 Progress report is avaliable at https://www.peterborough.ca/en/city services/resources/Documents/Social-Services/Housing-and-Shelter/CSSS21-005---Appendix-A---HHPPR-2020.pdf. The federal government receognized the need to support the non-profit sector, with a priority focus on people experiencing or at risk of homelessness. As the Community Entity - United Way Peterborough was responsible for almost 1.4M in Economic Responce Plan funding received throughout f2021, this additional funding was used to support eleven additional progrects, including the purchase of a building and the renovation of a second to add permenant supportive housing for people on the By-Name-Priority List and adding additional outreach programs when they were most needed.
